

Datacard® CP60™ Card Printer

The CP60 card printer offers one-sided or two-sided printing and helps ensure high-quality photos, graphics and signatures.

High impact power and simplicity

Choose the Datacard® CP60™ card printer for professional-grade power and superior operational simplicity. This printer allows you to maximize your time by producing up to 180 full-color or 700 monochrome cards per hour. Versatile and cost-effective, the CP60 card printer is ideal for healthcare, education, retail, corporate and other markets that demand cards with brilliant colors, life-like photos and crisp graphics.
