

Which Regional Minnesota Training Session Will You Register for Today?

CompTIA Security+ BootCamp

Instructor: Duane McNulty

Over 25 years in the technology industry and a certified trainer since 2000.

August 21-25 • St. Louis Park, Minnesota

In this course, you will implement, monitor, and troubleshoot infrastructure, application, information, and operational security.

- Understand security fundamentals, security threats and vulnerabilities.
- Manage data, application, and host security.
- Access Control
- Implement compliance and operational security.
- Manage risk.
- Troubleshoot and manage security incidents.
- Plan for business continuity and disaster recovery.

This is a primary training if your job responsibilities include securing network services, devices, and network traffic.

The High Impact Leader

Instructor: Susan Hill

Over 30 years as a development professional, currently a highly skilled sought after trainer

August 22-23 • St. Louis Park, Minnesota

High impact leaders create a work environment that enhances productivity, teamwork, and the achievement of real results.

- Gain new insights about the transition from individual contributor/expert to leader.
- Managing time.
- Continuous improvement plan.
- Create effective 'connections' with others via versatility in communication style.
- Building relationships.
- Project a professional 'leader' image in the workplace.
- Identifying strengths and weaknesses

Leave with powerful tools provided through facilitator-guided discussion, skill practice exercises, and individual introspection. Discover your high-impact potential!
